WOMEN FURNISHED WITH WORK AT  
HOME: BY TOWNS.

---

## WOMEN FURNISHED WITH WORK AT HOME: BY TOWNS.

[In many cases, the manufacturers furnishing work for women to be done at home were unable to state the number of women so employed or the amount of wages paid them. This, necessarily, renders this presentation incomplete, and is due to the fact that the cost of manufacture is paid first to the contractors or sub-contractors, who, in turn, pay it, in part, as wages to the women doing the work, the latter being really in their employ and not in that of the manufacturers.]

## WAGES PAID: BY TOWNS.

[The designation, an asterisk and dash (\*—), indicates that figures have been intentionally omitted in city or town presentations in order to avoid disclosing the facts concerning individual establishments. These figures are, however, included in the county and State totals. The absence of figures in the last three columns of this table indicates that no returns were made for wage earners.]

---

## CLASSIFIED WEEKLY WAGES: BY TOWNS.

[In those towns marked with an asterisk (\*), 30 in number, the number for whom classified wages were reported is for either or both sexes in excess of the whole number of persons employed June 30, 1885. The sex of the employes for which such excess is shown is denoted also by the asterisk. The reason for the slight variations in results, which affect but 336 persons in a total of 248,200 employes, is probably found in the fact that the figure showing the whole number of persons employed was for a certain day, while in reporting classified wages the actual number employed during the year was undoubtedly accounted for by some manufacturers. The variation in no way affects the value of the classification of weekly wages. The absence of figures in the first two columns of this table indicates no return of either "persons employed," or "classified weekly wages," or both, as the case may be. Those persons receiving board or rent in addition to wages, as stated in the footnotes, are included in the figures given in the table.]

## CLASSIFIED WEEKLY WAGES: BY TOWNS.

[In those towns marked with an asterisk (\*), 30 in number, the number for whom classified wages were reported is for either or both sexes in excess of the whole number of persons employed June 30, 1885. The sex of the employes for which such excess is shown is denoted also by the asterisk. The reason for the slight variations in results, which affect but 336 persons in a total of 248,200 employes, is probably found in the fact that the figure showing the whole number of persons employed was for a certain day, while in reporting classified wages the actual number employed during the year was undoubtedly accounted for by some manufacturers. The variation in no way affects the value of the classification of weekly wages. The absence of figures in the first two columns of this table indicates no return of either "persons employed," or "classified weekly wages," or both, as the case may be. Those persons receiving board or rent in addition to wages, as stated in the foot-notes, are included in the figures given in the table.]

# DAILY WORKING TIME: BY TOWNS.

[In this presentation, the "establishment" is the basis; that is, the figures indicate the number of establishments reporting daily working time in hours and fractions of hours for women and minors, for male adults, and, as regards Saturday, for all persons employed. When figures appear in the column headed "For Women and Minors," opposite the line "Not employed," they indicate that, in the number of establishments specified, women and minors were not returned as being employed. In the same way, the figures in the column headed "For Male Adults," against the line "Not employed," indicate that male adults were not returned as being employed in the specified number of establishments. "Not stated" includes those establishments not making any return whatever as regards working time on Saturdays, for all persons employed. The three totals given opposite the name of each city and town indicate, in each case, the total number of establishments engaged in manufacturing and mechanical industries in each city and town. The towns of Cottage City and Gosnold, in the county of Dukes, and the town of Montgomery, in the county of Hampden, having no manufacturing or mechanical establishments, have been omitted from this presentation.]
